

*Be grateful for all that is true.*

*All that is true is this: Life, Love, Sharing, Extension and Joy. These are the characteristics of God and of Truth, of which you are one. All that you experience must be of these, or else it is illusion made up in the mind.*

*Do not believe that which isn't real. Have faith beyond the experience you know now, and another experience will be given in the instant that you have readied yourself for it.*
